

The Declarative pipeline code will look like this:

```
pipeline {
  agent { label 'node-1' }
  stages {
    stage('source code management section') {
      steps {
        git 'https://github.com/digitalvarys/jenkins-tutorials.git'
      }
    }
    stage('Build') {
      tools {
        gradle 'gradle4'
      }
      steps {
        sh 'gradle clean compileJava test'
      }
    }
  }
}
```
